KEVIN LI

Full Stack Software Engineer

(617) 257.3595 · kevinli617@gmail.com · Boston, MA · [LinkedIn](#) · [GitHub](#)

ABOUT

Results-driven Full Stack Software Engineer with a background in real estate and automotive management. Passionate about crafting innovative software solutions that drive business growth and enhance user experiences. Expertise in developing efficient applications, leveraging cutting-edge technologies, and fostering collaborative environments. Dedicated to driving digital transformation and creating impactful solutions in a fast-paced tech landscape.

SKILLS

Languages - JavaScript, Python, SQL, HTML, CSS, | **Libraries and Frameworks** - React.js, Node.js, Express.js, Bootstrap, Tailwind
Database - PostgreSQL, MongoDB | **Other** - RESTful Routing, Axios, Postman, Github, VSCode, Microsoft Office

SOFTWARE DEVELOPMENT PROJECTS   May 2023 - Present

Orange Box Alerts | Automated Product Restock Notifier | React.js, Bootstrap, MongoDB | [Live Site](#) | [GitHub](#)
- Developed a full-stack web application with automated web scraping capabilities, constantly monitoring a web store for product restocks and implementing a notification system using Nodemailer to instantly send email alerts to subscribed users when restocks occur.
- Crafted a responsive front end with a mobile-first approach, leveraging React.js, Bootstrap, and Vite, while seamlessly integrating the highly secure Google OAuth 2.0 for user authentication and Stripe payment gateway for secure and convenient payment processing.

MBTA Tracker | Real-Time Train Tracking Application | HTML, CSS, JavaScript | [Live Site](#) | [GitHub](#)
- Created an MBTA train tracker application, leveraging HTML, JavaScript, and CSS to query data from the MBTA V3 API and plot positions of routes, trains, and stops on an interactive map powered by the MapQuest.js SDK.
- Designed a user-friendly interface allowing users to select different MBTA lines and view real-time train positions and statuses.

Meta Bikes | Full-Stack E-Commerce Site | HTML, CSS, JavaScript, MongoDB | [Live Site](#) | [GitHub](#)
- Led a team of three developers to successfully develop and launch a multi-page e-commerce site in only 2 days, ensuring seamless user experience and responsiveness through implementation of CSS styling and JavaScript functions for HTML element rendering.
- Implemented RESTful API calls to an Express, MongoDB, Node.js backend to handle all CRUD operations. Thoroughly tested backend routes using Thunder Client during development.

PROFESSIONAL EXPERIENCE

MP Signature Realty, Real Estate Agent | Malden, MA   **Aug 2020 - May 2023**
- Attained the award of second-highest performing agent in 2021, recognized for facilitating over $3M in real estate transactions.
- Developed and maintained a strong network of clients and industry professionals, resulting in a consistent stream of referrals and repeat business.

North Shore Auto Mall, General Manager | Lynn, MA   **May 2012 - Sep 2020**
- Implemented streamlined operational processes, enhancing efficiency and productivity across all departments, leading to improved customer satisfaction ratings and reduced costs.
- Oversaw the integration of customer relationship management (CRM) systems, optimizing lead management and sales processes.

EDUCATION

GENERAL ASSEMBLY | REMOTE

Software Engineering Immersive   **May 2023 - August 2023**

Full-stack software engineering immersive student in an intensive, 450+ hour program focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration strategies. Developed a portfolio of individual and group projects.

CODECADEMY | REMOTE

Full-Stack Engineer Certification   **September 2022 - March 2023**

BRYANT UNIVERSITY | SMITHFIELD, RI

Bachelor of Science in Accounting, Minor in Legal Studies   **September 2008 - May 2012**
